

PETCO

Heavy Duty Pumps & Water Turbine Mfg. co.

Flexible Coupling with Spacer PFC Serieese

PFC

Model

Flexible Coupling With Spacer

A: Flexible Membrane
B: collar Bush
C: Spacer
D: Middle Flange
E: Spacer Flange
F: Hub
G: cylinder Head Cap Screw

H: Hex Head Bolt
I: Lock Washer
J: Neck Bush
K: Hex Head Bolt
L: Hex Head Bolt
M: Nut

PFC 1400	130	297	280	150	126							210	172	-

* Maximum bores shown are based on standard DIN/BS rectangular keys.

PFC

Model

Flexible Coupling With Spacer

- A: Flexible Membrane
B: Collar Bush
C: Spacer
D: Middle Flange
E: Spacer Flange
F: Hub
G: Cylinder Head Cap Screw
H: Bolts

ADVANTAGES :

- Easy to fit .
- Acc. to API 671 , API 610 standards.
- Acc. to AGMA class 9.
- Suitable for electric motor and turbine drivers.
- Execlent power-to-weight ratio.
- High misalignment capability.
- Reduced machinery vibration.
- Maximised bearing life.
- Stainless steel flexible membranes for maximum life.
- Anti-fly retention of the spacer in the unlikely event of membran failure.
